The New Bible

First Chapter: Blessed are the meek

Blessed are those rejected by this world and its people
for they are ones rejected by satan and his people
they are the closest to me
Through them i suffer and they suffer through me
They suffer through Christ and Christ suffers through them
Their souls are the one and the same
Different bodies, one soul
All of them suffer for me
For in suffering are the mysteries revealed to God's minions
They get closer to God and attain eternal salvation throughout the
worlds to come
and the worlds that came before this world
Within each world are hidden a thousand worlds of mysteries
evermore
The evil people forget these worlds and remain in the physical
plane
They become animals or lower beings
The suffering you see of animals
it is their own fault
Through previous lives and their sins overburdened
you see them subjected to the cruelties of nature
Their suffering is a way to purge their sins
and make them come back to me
but alas, most of them prefer being crooked
they prefer being evil, they prefer suffering others and themselves
It may be that the celestial beings are spiritual, not physical
or they may be physical beings intent on evil
The predators and their slaves
Both of them are going through the same trials and tribulations

Do not think that the Predator has won over its prey
For the predator will become prey of its victim later on
Do not laugh and feel joyous when you excel over your enemies
for the joys of success are temporary, and so are their failures
Learn to be generous in victory and patient at losses.
For losses you will incur will be plenty throughout the worlds
Because i designed them in a way that they teach you more than
victories
Alas, my servants are bound by this world
and when they are provided pure grace, they reject it
They prefer the life of this fallen world
But the worlds other than this are many and much better

Second Chapter: The Words of God Shall Remain Forever

My spirit and flesh is gone
but my words shall remain
for in the beginning was the word
and the word was God
and in the end
only the words shall remain
that is the bible in your hands
Prepare for harsh realities
for the believers shall always be suffering
just like their saviour
Never once has my son been in utter bliss
for bliss is for the weak
and suffering is for the strong
the true believers in Christ
Christ, my son
The one who bears burdens of all the worlds that exist
He is the only reason why I haven't destroyed all the worlds for
their iniquities
for even in hell will the evil people commit sins
They will blaspheme against my name
They will blaspheme against the Spirit
The pain and torture never ending
Only Christ will save their souls then
Trembles the world and its spirit
in fear of the Lord
but the humans
they fear God not

How utterly terrible are these people
they rejoice in the world where Christ was crucified
who died for their sins
the same world they have considered their paradise
they commit sins evermore
some of them expect Christ to save them while they keep on
sinning
And after, if they are saved, they keep on sinning?
No, Christ will not save such compulsive sinners
who commit every other sin of the flesh
Thinking their life has no meaning other than pleasure
There will be no pleasure in hell
not a single moment!

Third Chapter: Christ cometh again

Christ cometh again, but not to rule the earth!
Christ has been crucified many times before
and he will be crucified many times again
Purging of the sins for the various generations
Do not think of him as crucified one time only
For throughout the history of mankind has he been crucified in
many incarnations
From Mithra to Osiris to other incarnations
Not always has it been a Crucifixion
sometimes he was stoned
at others his body torn into pieces
For he also sacrifices each time his believer suffers
The persecution of his believers is his persecution
The time has come
for Jesus to come again on earth
to sacrifice for the sins of the people of earth
for the sins of these current generations are many
Will be born as an arab? Or as a jew again?
Or as a hindu or a buddhist? or in an atheist family?
Born in Shinto family? Or the traditional african folk people?
Only he knows where he will be born
He will sacrifice himself for you
As he has sacrificed himself many times before
History repeats itself
Just as the day comes after night
and the night follows the day

Christ sacrifices himself
and rises up from the dead
It has been happening throughout history
and it will keep on happening
So do not weep at his suffering
And do not rejoice at him rising up
He does it all the time
Each soul is to learn from him
For the souls of living things are so many
Will he be kept at Guantanamo by the modern day Romans?
Or will he be crucified by the arabs in Syria?
Is he here already?
Or will he reveal himself soon?
Most will ignore him
just as they did before
when he was crucified
2000 years ago
Most of you will mock him
just like the people did before
only a few will follow him
but even they will betray him
no one will sacrifice themselves for him
He will suffer alone
for your sins
and he will raise up from the dead again
And this event will happen again
after a few thousand years
History will keep on repeating
For without his continued sacrifices
All humans would have perished
burning in hell for eternities

The Last Chapter: Christ saves people in hell

Every thousand years or so
Christ goes down to hell
Through his glory
He saves all of those damned
He raises them up
Alone he does it
Believers and unbelievers alike
All are saved

They are either given life on earth to live again
or sent to upper realms if they are believers
The power of Christ is felt
even by Satan himself
He bows down before him
and acknowledges the Christ as Lord
Hell trembles over
and all the angels therein stare in awe
at the sight of the Mighty and Glorious Christ
Glory be to Christ
Our Lord Our Savior
Of all the worlds
There he is down again
The Trumpets in hell are thunderous
whenever Christ arrives there
All the people burning and gnashing their teeths
Feel his power and all their agonies vanish
Christ is your savior
even if you are in hell
Only he is the way out
There is no one else
Hell freezes over
All the fires and torments are quenched
The presence of Christ does it!
Praised be Christ thy God Amen!

Giving to the Needy

“Be careful not to practice your righteousness in front of others to be seen by them. If you do, you will have no reward from your God in heaven.

“So when you give to the needy, do not announce it with trumpets, as the muslims do in the mosques and on the streets, to be honored by others. Truly I tell you, they have received their reward in full. But when you give to the needy, do not let your left hand know what your right hand is doing, 4 so that your giving may be in secret. Then your God, who sees what is done in secret, will reward you.

Prayer

“And when you pray, do not be like the muslims, for they love to pray standing in the mosques and on the street corners to be seen by others. Truly I tell you, they have

received their reward in full. But when you pray, go into your room, close the door and pray to your God, who is unseen. Then your God, who sees what is done in secret, will reward you. And when you pray, do not keep on babbling like muslims, for they think they will be heard because of their many words. Do not be like them, for your God knows what you need before you ask him.

Neo-Judaism

New religion of Israel post world war 3.

THE NEW TANAKH

First Chapter

The words of Patrick son of Leonard, one of the wandering prophets at Tel Aviv in the territory of Israel. The word of the LORD came to him in the 70th year of the reign of YHVH himself in Modern day Israel, and through the next decades under various Israeli leaders, when the people of Israel were nuked into oblivion after the mighty test of The Holocaust The Lord God had tested the chosen people, and they passed it with shining valor. The Call of Patrick The word of the LORD came to me, saying, "Oh Israel, you have committed the sins of the Germanic people who holocausted you" "Beware, for thy Judgment is near and swift" "One Mighty blast from the terrorists, and all of Israel shall be wiped from the face of the earth" "You are indulging in the sins of your forefathers when Moses came and met me at Sinai for many days" "For the Lord God does not like any forms of sins" "Those on the Lord's side, leave Israel NOW and be saved!" "Those who are destined to be destructed, await the fate of the two cities of the country of the Sun" "It will happen sooner than they expect" "Nothing further will be said" "This is the final end of the tribes of Israel" "The Final Judgment for killing Christ"

Second Chapter

The word of the Lord came to me:
"Go and proclaim in the hearing of Berlin:
"This is what the Lord says:
"Do not think that I will not destroy your evil nation for you did to my people
For you committed the most horrible of crimes
treated fellow humans like cattle
into the machines you fed them
out of love for my supposed son?"

Or was it for some pagan Aryan false gods before me?
Or was it for your own vanity?
Do you not forget that every human dies?
And many nations destroyed before?
Have you looked at the destruction of Pompeii?
Do i not rumble your towns from time to time?
and send in floods?
Was not your humiliation at the hands of Americans and Russians
enough after World War 2?
Does your aryan nation want to kill all the other nations of the
world?
Will i not burn your nation in hell for an eternity?
Do you think my people cannot nuke you?
Despised is your nation in the eyes of the Lord forever
and your Nordic Aryan race will disappear from the face of the
earth
All your arrogance, your vanity, your sins, are piling up
And my wrath is kindled against you Satan worshipers
For you plan yet another holocaust of the sons of Ishmael this
time
Israel will nuke you
They have not forgotten what you did to them
I have given them my order to bring pains of hell upon you
and end your nation forever
Hell awaits you
where Hitler and
Friedrich Nietzsche
will meet you
and all the deniers of God
All the nazis, and other evil nations
they are suffering right now
enjoying they are the poisons of hell
that are much bitter and painful than that of Auschwitz
and other concentrations where you killed my people
Hitler was like Pharaoh of the Exodus
And all his followers hell bound
Hell awaits you
Complete destruction in this world
your aryan nation forgotten for all eternity
like many nations before
but your culture is not even worthy to be remembered
for you are descendants of barbarians

who used to eat their babies and rape women and worship pagan gods before me
Your nation was never great
and your plans will fail
The Lord God has spoken through the words of Patrick his weeping wandering prophet"

Chapter 3: World War 3, Muslim Holocaust, Nukes, Destruction of San Francisco

For The Lord God is speaking openly to his people now
And many of them listen but cannot do anything
and many of them are prophesying
and the knowledge and the technology will be all gone
Most of humanity will be destroyed
God will destroy wicked cities like San Francisco and Mystery Whore Babylon
You all know this
Atheists will keep on denying
And the holocausts of muslims will be perpetrated in the so called first world countries
And in return, the terrorists will nuke some major cities
Natural disasters will be abundant
Russia and USA will be destroyed
China will take revenge on japanese
India and Pakistan will nuke each other
North Koreans will kill many westernized South Koreans
It will be worse than World War 2
Trump and Putin the perpetrators
It will be hell on earth
All of this for wickedness of man has increased just like the times of Noah
Amsterdam will drown
Gay people will be persecuted
Transgenders beheaded
Transfluids dejected
Genderfluids blood from their head ejected
Planet Earth will be uninhabitable
and few people will try and colonize outer space and fail
All humanity will end
and good riddance to an evil creation
Humans are the worst creation of God
Says the Lord Almighty through Patrick

Chapter 4 - The LORD says to build The Third Temple

Even among all of this impending chaos,
The Lord says through me to build the temple
remove all the pagan nabatean unholiness
tell them to stay in their holy lands
for their prophet himself stopped directing himself towards the
Israelite temple
and he told his followers to change the direction
to that of Ishmaelite Allah
Let them move back to their holy lands
and let us build Our Holy Temple
There is still hope
If we turn back to YHVH
Jerusalem is the holy site for the sons of
Isaac
Makkah is the holy site for the sons of Ishmael
For even Jesus was a son of Isaac
Give them proper warning
Let the American believers of God help you out
Let America not follow Azazel and his devils
There is still hope
BUILD THE THIRD TEMPLE
BRING YHWH BACK INTO THIS FALLEN WORLD
Let all sin disappear
and ungodliness

Chapter 5 - The Mashiach is almost here

He is almost here! Israel is rebuilt! After the ruins of the corrupt generation, YHWH will send the Mashiach. When all the sins of the current generation are purged, and only the holy people remain, he will return

अंत म दिनया म शांति

There is no celebration ever in DevaNagri (Land of the Devas)
For they do not indulge in petty meaningless shallow indulges of
'happiness'
They carry the sorrow of the innermost souls of their suffering
creation
They carry the burden of the sorrows of the thousand hell realms
There is nothing but infinite sadness of the infinite worlds for Devas
For they are not vain beings
They know the sadness is above happiness
The word Om and its sound has sadness
It is not a happy term
Gods created the worlds and its beings through sadness
Depressing is the sound of Om
It is a permanent infinite sadness
Om
Do not come celebrate in our realms
we carry your burdens while alone forever for eternities upon
eternities
Do not burden us with faux-happiness
For happiness is temporary and fleeting always
Have you feel infinite gratitude over a strand of food morsel?
If you haven't you haven't reached piety and gratitude for your
creation
For a single drop of water that you drink is worth thanking a
million years
Most of you are ungrateful
Evil and ingrate
Plot against your fellow man
Expect all the joys and pleasures
inflict all the pains upon your fellow beings
This perfect world created for you

you turned into a hell realm of a thousand kali yugas
misery and murders into millions
unto billions this century
No, the devas are not happy
Brahma, Shiva and Vishnu
None of them are ever pleased of your doings
Only in graves do humans behave in a noble manner
There should have been no cradle for them
Only life in graves forever
Peace in the world at last

Rules For Kali Yuga

By

Lord Vishnu

This is an age of complete moral decay. The cycle of time does not reverse. This age will continue to go on. It has to go on. It is a cyclical process. All the moral, ethical, societal vices will become. There is no stopping it. It will last a long period. You cannot and will not be able to force people of this era to conform to the Yugas where everything was pure and good, or was relatively pure and good. For unfortunate souls born in this evil age, they have to deal with it. This Kali Yuga will continue until every form of evil is rampant. It will only get worse. Here are some of the ways you can deal with living in this evil age:

- 1) Don't get married. Women are fully corrupted and they will cheat on you. You will get cuckolded by them in every possible manner - physically, romantically, financially, etc
- 2) Don't have kids. They will resent being born in this age, and will hate you, and will be a burden on you. They will ruin your existence, and will only use you for their gains. Don't abort them, but don't impregnate women. Just climax outside their vaginas. Don't force women to get pregnant or make them abort kids. Very bad karma. You are highly stupid if you impregnate them deliberately just because you were feeling good.
- 3) Try avoid following the norms of this evil society. Seek inner peace. Seek solitude. Avoid rampant consumerist materialism, otherwise you will definitely lose your soul, and become lower beings in your next lives.

4) Seek asceticism. Try to avoid being part of this fully corrupted society. You don't want to be part of this vicious cycle of Samsara, especially in this Kali Yuga.

5) Do not pollute the earth. Do not consume the resources of this planet without planning ahead.

6) Do not follow the norms. Most people are evil, or are made evil by becoming part of the system. Do not follow their evil ways. They will ridicule you for being different, and yet it would be better for you not to become like them

7) Seek inner peace. Do not go for material things unless it's absolutely necessary. Do not buy and consume things more than your needs. Do not follow your vain desires.

8) Do not get jealous of vain stupid people of this world. They are fooled by maya.

9) Do not change your outer & inner appearance/orientation. Your face, your race, your gender, your sexual orientation, they are all natural. Accept who you are. Accept your destiny.

10) I, Buddha/Krishna/Shiva/Vishnu/Mahavira/Brahma/etc, am a creation of God. I am NOT a god. Keep this in mind. At best, i am his agent sent into this world in various forms and incarnations. Do not worship me. Worship God alone. God is One. He is the Universe, and beyond. Pantheism/Panentheism/Pan-Panentheism, Post-Pan-Panentheism, Pan-Pantheism, Monism, Monotheism, etc

11) Anything is possible in this Universe. Aliens may or may not exist. Demons may or may not exist. Other so called paranormal beings may or may not exist. Angels may or may not exist. Universe may be eternal, or it may be a temporary construct, or maybe a dream in the mind of Ishvara (God)

12) This Universe/Matrix/Maya/Dunya/Multiverse may be operated by an entity that is outside the dimension and construct of time and space, so that entity may be able to manipulate this place. You are also capable of doing that. It's all in your mind

13) Aatma may or may not exist. Universal Aatma may or may not exist. Soul may or may not exist.

14) When you start evolving to higher states of consciousness, you will start seeing yourself in Vishnu/Shiva/Brahma/Buddha/Mahavira/Jesus/etc, because you are them and they are you.

15) Do not lose your innocence, your inner child.

16) Do not change yourself for others. Be yourself. Do not conform to Kali Yuga. Avoid this world, and use it instead of it using you. Do not become a cog in the wheel. Be independent. Be free.

17) Follow your intuition. If you feel that something you are doing is wrong, just don't do it. Follow your inner moral compass. Do not regret doing bad, evil acts.

18) Best way to deal with negativity is avoidance, and non-interference. Do not become negative. Do not respond to them with positivity. Just don't engage and move on.

19) Do not follow fashion. Do not follow the ways of this world. Seek Moksha. Seek Nirvana. Seek Paradise. Paradise is inside you.

20) Your words. Your actions. Your inner thoughts. They all meaning nothing. You have nothing to prove to this world and its people. Just survive on bare minimum and practise yoga and meditation, for which you don't need any material possession. Seek minimalism.

21) You don't own anything in this maya. You own nothing, so you will lose nothing.

22) Physical world is evil. Spiritual world, inner world, world of the inner mind, that is the real world where you will attain true happiness and salvation.

23) Study science. Learn. Enjoy good peaceful music. They are good for your mind. Ultimately, they are all distractions

24) Do not hurt others, even if they hurt you. Don't seek revenge, and forgive and forget. Do not engage. It will only result in more provocations and hurt for both sides.

25) Best way to live peacefully is non-interference.

26) Do not hurt other living things, otherwise you will get hurt in your next lives.

27) Spread awareness, but do not convert them. They will find the truth on their own.

28) Be creative. Increase knowledge. Explore new avenues of life, and create new music, new philosophical movements, new ideas, new languages, new cultures, new AIs, new technology

29) Technology isn't bad. People are bad. People are bad because this world is bad.

30) Kali Yuga = Physical World

31) Nirvana is spiritual. Moksha is spiritual. Non-existence itself is not physical.

32) Inner World is Paradise. Do not change it into hell by being fooled by maya, they physical Kali Yuga World.

33) The Age of Innocence is eternal, forever, and inside you, your inner child.

34) Don't be shallow. Don't be vain. Beauty is temporary, and only fools are attracted to it. Fools get fooled by maya, and try to conform to it. And even if they do manage to become successful, their success is very temporary and someone else overtakes them, and they are not truly happy. Don't be like them. They then seek hoaxing yogis and kabbalah mysticists, faux gnostics, satanism, and other stupidity to gain back what they lose here. They lose everything they were provided. They became part of the system. They were used by others. They allowed this world to use them and then spit them out.

35) That is why you don't have to indulge.

36) The more you indulge, the more your cravings increase.

37) Seek inner balance

38) Nobody is perfect, not even Vishnu/Shiva/Buddha/Mahavira/Jesus/etc

39) Your life is not a competition. You don't have to compete. You have a choice.

40) Do not commit suicide. Try to die naturally.

Keep it simple. Be simple. Follow your own way. Misanthropy is not the answer, because they are just like you, just misguided.

What ought to be finished by one adroit in great In order to pick up the Province of Peace is this: Give him a chance to be capable, and upright and straight, Simple to address, delicate, and not glad, Mollified as well, upheld effectively, With few errands, and living delicately; His resources quiet, judicious, and humble, Unswayed by the feelings of the groups; What's more, let him never do the smallest thing That other insightful men may hold reprehensible. (What's more, given him a chance to think:) "In security and in happiness May animals all be of an ecstatic heart. Whatever breathing creatures there might be. Regardless of whether they are delicate or firm, With non excepted, be they long or enormous Or, on the other hand fair measured, or be they short or little Or, on the other hand thick, and in addition those seen or inconspicuous, Or, then again whether they are staying far or close, Existing or yet trying to exist. Many animals all be of an ecstatic heart. Let nobody work another's demise Or, then again even slight him at all anyplace: Furthermore, never let them wish each other sick Through incitement or angry idea."

Also, similarly as might a mother with her life Secure the child that was her lone youngster, So let him then for each living thing Keep up unbounded cognizance in

being; Also, let him too with affection for all the world Keep up unbounded cognizance in being Above, beneath, and all round in the middle, Untroubled, with no adversary or enemy. And keeping in mind that he stands or strolls or while he sits Or, then again while he rests, free from tiredness, Give him a chance to determine upon this care: This is Divine Standing here, they say. Be that as it may, when he has no trafficking with sees, Is ethical, and has culminated seeing, What's more, cleanses avarice for sexy goals, He doubtlessly comes no more to any womb.

Jesusism

Son is Better than the Father. Jesus is better than Father God. Jesus>God. I call it 'Jesusism'. How do I start this religion? You'd have to keep in mind that Jesus, God's Only Begotten Son, sacrificed himself for his Father, and Father has done no such thing for this world, or any world, nor for his creation. Indeed, Son is Better than the Father.

Jesus is indeed better than his father, even if he said he wasn't, because God told him to sacrifice himself for the good of his creation. Jesus was brainwashed into doing all his father's work. Jesus was crucified, not his father. I won't respond to your generic insults because you are obviously a christian who finds this new religion an affront to his religion. Am i a heretic ?

Jesusism is the new world religion. Jesusism > Christianity!

Is Jesus better than his Father, or is he not? Yes i have read the bible verse he says that Father is greater than he is, but still, Jesus was the one who performed miracles. He was the one who died for our sins. Father God did no such thing. Father God created the devil, keep that in mind. Jesus is pure goodness. Father God is obviously evil. Hence, here's a new verse, and beginning of a new Bible of the followers of Jesusism:

The New Bible of Jesusism

Chapter 1

Verse 1: The Son is Greater than the Father, for he sacrificed himself for us, and his Father did not.

Verse 2: Evil Father created this evil material world where his only begotten Son was crucified, and Father God did not interfere while all of this was happening. Jesus is not of this world. Father is of this world, as he created and operates this world.

Verse 3: His Father Forsook him. And Jesus Wept.

Verse 4: They mocked him. They laughed at him. He cried out to his father. His Father did not answer, while he suffered alone for his Father's World and his people. Jesus was forced to sacrifice himself by his Father. And his Father did not care.

Verse 5: And Jesus said to them, " I belong to my father, the devil, and I want to carry out my father's desires. He was a murderer from the beginning, not holding to the truth, for there is no truth in him. When he lies, he speaks his native language, for he is a liar and the father of lies. "

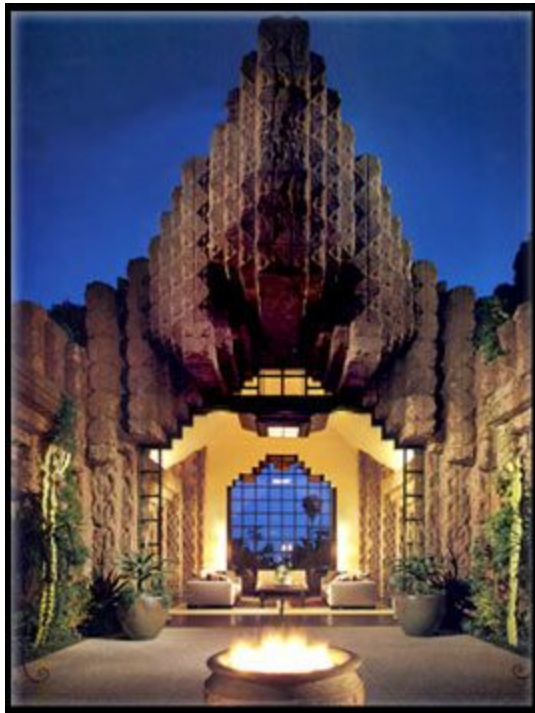

Verse 6: Whoever is not of this world suffers as he goes through various trials and tribulations. Whoever is of this world enjoys it a lot. This world is inherently evil, and evil forces rule upon it. Father is Evil. Father is Satan. Father rules this evil material world. The Demiurge.

Verse 7: For the Lord God is Satan, and Satan is God. Because God is the Light and the Darkness of this World. He is both good and evil. Jesus is his good side. Satan is his bad.

Verse 8: The true believers in Christ suffer, as they are prepared to suffer a lot for Jesus, for they don't belong to this world, like their Lord Jesus Christ, who is better than his father the demiurge who created him.

Verse 9: Prepare for harsh realities, because the true believers in Christ will always suffer. Because suffering is for the strong. And if you are not prepared to suffer, then become one of them, the evil ones. Then your life shall be easier in this world. But you shall perish eternally because of losing your soul in this world.

Neo-Maya religion

The **Mayan Revival** is a modern religious and architectural movement, primarily of the 1920s and 1930s, that drew inspiration from the architecture and iconography of pre-Columbian Mesoamerican cultures.

Proposed Neo Mayan Calendar

Instead of the common internet IP like:

baktun.katun.tun.uinal.kin

I propose a revised and more contemporary neo-mayan calendar that will be employed in Post-USA North/South American region of Planet Earth.

It goes like this:

alautun.kinchiltun.calabtun.pictun.baktun.katun.tun.uinal.kin

Neo Longer Count example:

19.5.2.8.13.0.4.9.11

Of course that would mean a bigger circle in that mayan calendar circle. Proof of expansion of the Universe/Multiverse!

Neo-Taoism

One of the people I study with ([Bruce Frantzis Story](#)) talks about the distinction between the older 'water traditions' and the newer fire traditions (neo-Taoism) - [Taoism](#) . In the older esoteric practices are fundamentally about noticing, allowing, letting go, feeling inside the body, whereas the newer practices are about 'making stuff happen' and including visualizations.

I found this is the name of Xuan xue , 玄学, and I have to say that every translation about it are miss understand it and concept translation have no clue about it true meaning at all. What people can know and only know is about somebody have developed this name in The name compounds *xuan* 玄 "black, dark; mysterious, profound, abstruse, arcane," occurs in the first chapter of the [Lao-tzu](#). *Xue* 學 "study, learn, learning," literally the "learning" or "study" of the "arcane," "mysterious," or "profound." In [Modern Standard Chinese](#) usage, *xuanxue* can mean "neo-Taoism," "Buddhism," "metaphysics," "spiritualism," or "mysticism". This explain is really mixed up so many different things in one , and no doubt it will make people confused. XuanXue , 玄学 means mysterious knowledge , this is the actual meaning of it . and it represents few Mysterious knowledge combine together , NOTICED here , it is knowledge I am point out , it is pure knowledge , not any learning, science, religion or philosophy , most of people mixed up this old ancient knowledge.

In old Taoism or even before it named as Taoism , there are five major types of knowledge that offering the clergy; priestess; reverend whatever you want to call them in old times , when they master those type of knowledge , they can have the need and power from the kings or Gods itself in order to serve the leadership and make them spiritual powerful and advanced in human social system .

everybody knows about five elements in Taoism , water , wood , fire, earth , metal . and I am about to tell five , has nothing to do with this five and totally different things in the system . and other Five of knowledge tools in the system actually made the religion started in the first place in long long long time ago . after you read this , you can search about almost every religion and see how they act , they perform one of those five knowledge will be enough to be the top of the power chain .

These five are: long living knowledge , medical knowledge , life destiny predict , metaphysics and divination , and there is actually no english words for some of them, i can only try to find most related words for it . i do can explain them in english.

These five in practice called XUAN xue , or metaphysics .

What you see from nature and learned from it and enroll with it and use it in multiple ways. I think this is what metaphysics means , I am not going to agree that long time ago old physics are short sighted and pointless view , simply because now modern people are thinking that modern people are better than old people , think , we are from them , we have our advance , they have theirs , don't let ego blind yourself , you have no idea how history have been made and it's far more and complex than you can imagine . otherwise we won't be here and so advanced , be remembered , we are stepped old ancient stones to arrive here , without them we are nowhere .

Long live knowledge. I guess i won't need to say much about it , once you know how to make life extend and you will become kings favor and religions are from here, I have no idea how old ones who actually know how to do this vanished and left those we can only pray to do such a thing (all of pray wont get a long life) so that's something when you lost your power to actually do , but only to pray for it will also do the trick to remain in the inner ring of the power, (i believe there is a devastated moment happened when some long live king are so bad , that ancient saint decided just bury everything and let it die for reasons).

Medical knowledge, ancient priest or clergy , also do heal people in many ways , in spiritual way, in physical way, and they make medicine too . this also make them powerful. and this remains , and doctors and medicals are still the most powerful thing in the world, only the change is , now everybody kept information in money making purpose , and in ancient time , if no people live there is no kingdom , heal is more about survival , exist , nothing really about money . when population are not that much like today . I feel sad about this in many ways , when you hear so many great declare about make better life but in fact, you feel another way.

Life destiny predict , this is what i call it , in english it might have many words for it . i found them are not that occurred , now I know many of you might don't want to believe it , just you know nature law is there , no matter about you want to believe it or not , you will be determined by it. in taoism all life have a purpose and a destiny to be . (this is not about death and you all should know death is not the destiny and not the end) . nature law made our abilities to us because of this purpose and destiny , that's why everyone born with a gift , whether you like it or not , you will combined with it , in ancient times , finding this purpose and destiny was great important for living , when you are well knowing what you need to be and what you can be , then you actually can figure out what you are gift are and then you have a long way to practise it and master it and embrace it . other than that , you gift might appear like a disaster to you , or nightmare . or even worse the reason that you life ends faster than it should be . I think i made myself clear about this , dont mixed up

this with the fortune teller or future tell type , telling you about your life history or what your future gone be have nothing to do with life destiny . when you are meant to be something greater or bad , you can only chose not to be there at all (dying young or dead) or get there in very hard difficult way . the easy way ? you need guidance and your own hard work to achieve the easy way . so consider there is no easy way at all . but happy way or unhappy way . this type of things almost vanished , just some of them remains and you wouldn't really can tell difference between others . so mixed up in modern days .

Metaphysics , maybe this is the word or not , I don't know , you decide it . I am gonna give the explanation here . this might not be in English at all . since this type of Thing only exist in China and chinese is the best language for it , not simple chinese , but tradition Chinese , Simplified chinese are the deadly bomb for Chinese , it kills .don't learn simplified Chinese , it make your go nowhere but misleading meanings . the third part of these five knowledge is the knowledge to know nature through it surface , by reading the surface of it and search of signs ,signals , to know the meaning of it , the law of it and use it in the way of favor , if this make sense to you , you know what i am talking about . ancient saint , they found the way to communicate to nature and this is also apply to communicate with people . you might know there is something called COLD READING in now days , but what you dont know is , this is nothing new , but really old type of knowledge , also , this is in favor of survival with the mother earth first , then it become favor of kings rule system , then if become vanish , because it just to powerful to let everyone know about it , almost everyone I am encounter with , they all afraid of been knowing deeply in heart by others , it doesnt matter these others are close ones or strangers , for sure they feel so danger if a stranger knows to much about you , they fear what if they do something hurt them , and for loved or closed ones , people also want to keep the chance to lie or to in the case what if I need , this is nothing related privacy , all i know is , people mixed up so much about privacy and selfish motives, and desire motives , and they fear embarrassment or so many other reasons to be totally opened to each other, although we all know keeping secret will lead lots of conflicts , there human still do , lie is not good , there people still do . why ? out of fear then . reading people are easy , this knowledge remains , you can find many names for it , most of this knowledge now using by special reasons and motives and purpose . you won't use it daily life , and even you want to learn it , won't have much chance to get real ones , only if you are in the special position , what you can get are basic . all I want to say it , ancient saint people , used many many years centuries to gather those information because they don't want to waste time on repeat old things and catch up , so they have find this way to get fast and more ,until system fears and destroy all the books . this remains in books still , because this part are not that famous and not that dangerous than other type and also very easy to master it . I think most of powerful people read people or judge people by the looks and manners , the way talks and come to conclusion about others , not ? this still works

in many ways. but this is not reliable in modern time , because too many people knows the trick , the trick expires.

The Last One Divination. Now this is the part actually about tell the future ,and it is about use certain way to know somet result that about to happen before it happens . or review what have been missing or unseen . this is almost the start of all these five knowledge , and this is actual science but in no way to explain how , we are trying to explain so many things in nature and blinded ourselves , nature is there , some of it , does not require explanation. who can tell me why tree is tree ? you think you know about tree ? actually you only have a peek of it . explanation is always part of the puzzle , when you get one big piece of it , do not trying to make it everything of it . once you do , you are blinded or half blinded . we still use many ways to pre-read what about to happen , just you know even you know about it , you won't be able to change it , you might want to ask me , if we can not change future , why would this helpful or why should that even exist . ? it is because you see it in the wrong way .actually to know its all about plan how to react ,how to deal with it , it's never meant to change it or alter it . simply you can not , and time travel ? you can't , I have many ways to proof it can not be done , I simply don't waste time on try to make it work . why ? law of nature , one would do all the trick , if this really can do , we would not be here today , because someone in long way ahead future would come already and change everything in their favor . and therefore you and everyone is still here , and use your memory have you see any change in human favor ? no you won't . sickness and disease and disaster are still been issued by mother earth and there nothing really changed , I believe in the future if there are any chance this can be done , future people will do at least 1 or 2 times . since we have been wiped out few times already , yes , you might say that if they alter the timeline , they will vanish , so they won't dare to do it , if this is the case, they pointless to talk about it , wouldnt it ? its like you have full of food in the house , but poisoned , you couldn't eat it , then ,having it also the same as not having it .it doesn't matter in fact . To know is not about change it , to know is about how to take it and use it in the favor of real matters , if you know you are about to fall down from stairs , you would be able to fall in less injured ways or you can prepare the means to recovery from it . if your mind wide enough you might also can make a great use of it ,this system works in mysterious ways , i could not review everything here . just peek of the mountain to make you think outside of the box and keep this in mind . don't lie to yourself ,always good to know . but know the truth . or in the good way , simple live the good life today , and future shall in your favor , future is nothing but the result of present actions and thoughts .

These are the Xuan xue major five knowledge, not only these five, there are so many little ones and small types. but nothing out of these five, it's good to know them , but since we don't have long life like some of the ancients , practice them and master them become very hard in one life , but many should work .

I hope anyone who read this could find useful , do great with you life in the happy way . what everybody wants would not be in the favor of yours . destiny is pre-made and only if you embrace it , it would have great outcome .

The Hsuan-hsueh, or Mysterious Learning movement, was primarily concerned with the revival and reinterpretation of the two main Taoist philosophers, Lao-tzu and Chuang-tzu. It is therefore sometimes referred to as Neo-Taoism by today's scholars. Unlike its sources, however, the movement was not anti-Confucian per se, and indeed its two most eminent thinkers, Wang Pi and Kuo Hsiang, regarded Confucius, not Lao-tzu or Chuang-tzu, as the true Sage. These men in particular sought to move away from the apparent Taoist stress on withdrawal from the world, and develop a Taoist metaphysics and understanding of the Sage which would give support to the Confucian ideal of life in an ordered society.

In his commentary on the Tao-te ching Wang Pi held that the multiplicity of phenomena arise from, and are sustained and governed by, pen-wu - non, or unmanifested, being. Only by transcending distinctions, and returning and identifying with this mysterious source, can the Sage understand and harmonise the manifested world, including society.

By contrast, in his commentary on the Chuang-tzu Kuo Hsiang argued that the universe has no source or Creator, rather it is self-producing and self governing according to its own li, or principle. Each individual thing shares in this principle in its own unique way, and harmony in the universe and society is achieved by each thing accepting and expressing its inner nature naturally, freely, and fully. The Sage is one who by liberating himself from personal preferences and limited human knowledge comes to know, merge with, and accept, all things as equal and necessary.

Neo-Taoism, also known as Neo-Daoism, is an indigenous Chinese religion often associated with the *Daode jing* (Tao Te Ching), a philosophical and political text purportedly written by Laozi (Lao Tzu) sometime in the 3rd or 4th centuries B.C.E. The *Daode jing* focuses on dao as a "way" or "path" — that is, the appropriate way to behave and to lead others — but the *Daode jing* also refers to Tao as something that existed "before Heaven and Earth," a primal and chaotic matrix from which all forms emerged. Taoism did not exist as an organized religion until the Way of the Celestial Masters sect was founded in 142 C.E. by Zhang Daoling, who based the sect on spiritual communications from the deified Laozi. The Way of the Celestial Masters and other later sects of Taoism engaged in complex ritual practices, including devotion to a wide range of celestial divinities and immortals, and thousands of Taoist religious texts were produced over the centuries. Taoists also engaged with Chinese politics in a variety of ways throughout Chinese history. At one time, scholars in both China and the West distinguished philosophical from religious Taoism, but

more recently a continuity of belief and practice between these has been recognized. In both, a harmonious relationship between nature, humanity, and the divine is emphasized, and both are concerned with appropriate behavior and ways of leading and governing others. The term "Tao" has a number of meanings. Taoist religious sects were persecuted in China during the 19th and 20th centuries, but are currently undergoing a revival. Western interest in Taoism has, for the most part, been confined to the Daode jing, but in both the West and in the East, there is considerable interest in practices which, while not "Taoist" *per se*, are often associated with Taoism, ranging from fengshui to taiji quan to acupuncture and herbal medicine.

Quick Fact Details:

- *Formed:* As with many ancient religious traditions, an exact date is impossible to determine. Taoist ideas and early writings long precede any organizational structure. The date given here (c. 550 B.C.E.) is generally the time period when a variety of spiritual thinkers were putting their ideas into writing. These writings were not collected as a composite teaching of the "Tao" until the 4th or 3rd century B.C.E.
- *Deity:* While Taoists recognize a vast pantheon of gods and goddesses, they do not acknowledge any that are omnipotent or eternal. All the gods, including Laozi, are divine emanations of celestial energy.
- *Headquarters:* Taoism has no centralized authority and different sects have different headquarters. However, the White Cloud Temple in Beijing is a key center for training for priests and for administration.

The Hsuan-hsueh movement arose around the time of the fall of the Later Han Dynasty (25-220 CE), and lasted for some two centuries. Partly as an escape from the troubled times, and partly as a reaction against the dry scholasticism that had come to characterise Confucian thought, a proportion of the educated elite turned to the works of the ancient Taoist philosophers and the I Ching, or Book of Changes. The escapist motive expressed itself most strongly in elements of that part of the movement called the Ch'ing-t'an or Light Conversation, the most prominent of which were the Seven Sages of the Bamboo Grove, a group famed for their care-free unconventional behaviour. However it was the Hsuan-hsueh proper, as represented in particular by the writings of Wang Pi (226-249), one of the founders of the movement, and Kuo Hsiang (d. 312), which was to prove the most significant. Their commentaries on the Tao-te ching and the Chuang-tzu respectively, became the most influential written, while some of the terms and concepts they introduced were to inform much of later Chinese metaphysical thought. This influence began with the dialogue between Hsuan-hsueh thinkers and Chinese Buddhists in the third and fourth centuries, and when the movement started to fade toward the end of the

Chin Dynasty (265-420) it was into the then emergent Chinese Buddhism that part of its spirit and energy passed.
